**Meadowbrook / ASI
Loss Control Department
P.O. Box 11047
Montgomery, AL 36111**

800-536-7702

Updated: March 2011

INTRODUCTION

Meadowbrook/ASI has a variety of safety videos available for your use at no charge, through our Montgomery office. However, if you lose or damage a video, the cost of replacing the video will be your responsibility.

Since we have many members that use these materials, we loan them out for no more than three weeks and limit the number of borrowed items to three. We regret that we cannot reserve videos for a specific date. You must return all materials to us by United Parcel Service or Insured Mail.

Please order items by the catalog number and name.

Please provide us with a physical address, including zip code and or a P.O. Box Number only if it is large enough to accept packages- as well as a telephone number, including area code and contact person.

To order, please call the Loss Control Department at 1-800-536-7702, ext.7260 or 334-954-7260.

Alcohol / Drugs in the Workplace

Drug Testing in Workplace

The Training Network #697

Employers use drug screening to discourage use and ensure safety. Explain your basic drug policy and the testing procedure. Includes: negative effects of drug use; when testing may be required and when to seek treatment; and screening: employee rights.

Catalog # 133 VHS 20 Min. English

Drugs in the Workplace

Catalog # 132 VHS 70 Min. English

Just A Little Nip

Safety Short Productions #T061

Nearly half of all industrial accidents involve substance abuse. This Safety Shorts video reminds us to be aware and take responsibility for alcohol abuse in the workplace.

Catalog # 134 VHS 10 Min. English

Reasonable Suspicion Training for Supervisors

The Training Network #1329

Advanced training for supervisors to meet minimum for alcohol abuse and for controlled substances use. Topics include: Indicators of probable alcohol misuses/abuses; Observation & documentation of employee behavior; Role-playing scenarios for confrontation; Alcohol/controlled substances; social & health effects, workplace issues & symptoms.

Catalog # 135 VHS 34 Min. English

Reasonable Suspicion Training for Supervisors

J.J. Keller 1994

Indicators of probable alcohol misuses/abuses; Observation & documentation of employee behavior; Role-playing scenarios for confrontation; Alcohol/controlled substances; social & health effects, workplace issues & symptoms.

Catalog # 136 VHS 34 Min. English

Confined Spaces

Confined Space Entry

The Training Network #259

Thorough 1910.146 required training: Covers roles & responsibilities of entry supervisors, attendants and entrants; Creating/handling permits, identifying permit spaces; types of hazards & safety equipment; entry situations & emergencies

Catalog # 126 VHS 20 Min. English

Limited Spaces - Attics, Basements and Crawl Spaces

Safety Short Productions #T315

Blindly entering limited spaces such as attics, basements, and crawl spaces can be very dangerous. Plan for hazards ahead of time, and be prepared to take appropriate precautions.

Catalog # 210 VHS 5 Min. English

Construction

Kettle & Hot Stuff Safety

Garlock Equipment Co

How to eliminate hot stuff related injuries. Covers: Steps to setting up your kettle; Safe kettle operation and work area; Proper hot line installation; Proper personal protective equipment; Refilling procedure; On roof distribution of roofing material

Safety Video Catalog

Construction

Pavement Maintenance & Worker Safety	Strategic Highway Research Program
Focuses on products developed by the Strategic Highway Research Program (SHRP), which are or may be available in the future. Provides a summary of SHRP developments in effective pavement maintenance treatment, innovative repair material and equipment to complete pavement repairs, also new work zone safety devices.	
Catalog # 124	VHS 16 Min. English
Safety Bite: Breaker/Jack Hammer Safety	The Training Network #158
Warming up to prevent back injury; Wearing PPE for: hearing, feet, hands, eyes, face, head, and body; Inspecting the breaker for safe use; Hints for easier breaking.	
Catalog # 604	VHS 6 Min. English
Safety Bite: Flagging Traffic Safety	The Training Network #B142
Ensure your flaggers take the job seriously, as they protect the lives of their fellow employees: Flagging Responsibilities, Proper Clothing & Equipment	
Catalog # 122	VHS 5 Min. English
Safety Bite: Hard Hat Safety	The Training Network #B167
Function of hard hats: providing impact, electrocution, and/or heat protection; Maintaining suspensions in hard hats; Other hard hat maintenance; Overcoming arguments against wearing hard hats	
Catalog # 305	VHS 5 Min. English
Safety Bite: Trenching and Shoring Safety	The Training Network #B161
OSHA regulations and cave-in prevention; Protection: shoring, sloping, sloping shield installation; Sloping requirements and limits; Screw jacks vs. aluminum hydraulic shooting; Fire department assistance when necessary.	
Catalog # 606	VHS 5 Min. English
Scaffolds - Mobile Scaffolds	Safety Short Productions #T308
Mobile scaffolds are easy to erect, use, and dismantle, but they are safe only if they are installed properly by competent persons. The major hazard with mobile scaffolds is that they can be easily overturned because they are so light. To prevent tip-overs, follow instructions for proper installation and use.	
Catalog # 600	VHS 5 Min. English
Scaffolds - Part I General Requirements	Safety Short Productions #T285
Scaffolds are used in construction for both interior and exterior work, and accidents occur frequently. While fall hazards account for a high percentage of injuries and fatalities, additional hazards include structural instability and overloading. These hazards can be minimized or controlled by proper design and construction of scaffolds.	
Catalog # 601	VHS 5 Min. English
Scaffolds - Part II Work Practices	Safety Short Productions #T286
Scaffold accidents happen frequently. While fall hazards account for a high percentage of injuries and fatalities experienced by scaffold workers, additional hazards include structural instability, overloading, falling objects, and electrocution. Before performing work on scaffolds, make sure you are familiar with the hazards and understand procedures for dealing with those hazards, including fall protection systems and falling object protection systems being used.	
Catalog # 602	VHS 5 Min. English
Traffic Control Safety	The Training Network #424
Protect the public & your employees through safe & effective traffic control procedures; Common causes of traffic control accidents; Requirements of effective traffic control; Signs: types, uses and placement; Flagging; traffic control devices; flashers, barricades, cones, delineators, drums and flags.	
Catalog # 121	VHS 17 Min. English

Ergonomics & Office Safety

Computer Usage

J.J. Keller

Provides practical tips on how employees can adjust their computer work area to reduce wrist and back tension. This to-the-point video can have a positive, lasting effect on your employees and your bottom line. Instead of discussing complex ergonomics theories, the video deals directly with what your employees need to know. Video emphasizes to employees that it is possible to be injured at a computer or desk job. After watching the video, your employees will walk away with practical knowledge ...knowledge they can put to use every day.

Catalog # 312 VHS 10 Min. English

Industrial Ergonomics Safety

The Training Network #792

Remind industrial workers that ergonomic problems in manufacturing, assembly, and warehousing situations can lead to serious health problems. Give practical tips they can apply to their own workplace.

Catalog # 313 DVD 15 Min. English

Lifting - System Lifting 2000

Digital 2000 #1010DE

This is the most comprehensive and up-to-date back injury prevention video on the market. System Lifting means you must be aware of your entire back anatomy and lifting technique to make sure you are lifting properly with the entire system. Just learning back anatomy is not enough; just lifting with your back straight is not enough.

Catalog # 308 VHS 34 Min. English

Lifting in Construction

Digital 2000 #C003GE

Back injury is a major concern in the construction industry. Program demonstrates how the back functions, safest method of lifting, and prevention of back injury.

Lifting Safety - Back Injuries

Catalog # 111 VHS 40 Min. English

Office Safety

The Training Network #1605

Office employees frequently have the feeling that since they don't work 'out on a plant floor' safety isn't important in their jobs. Yet accidents and injuries in the office account for thousands of hours of lost time, and millions of dollars in worker's compensation and medical costs. Use this recently updated video containing new information to show employees what hazards exist in office environments, and how important it is to follow good safety practices. Covers: Safety awareness; Safety housekeeping; Slips, trips and falls.

Catalog # 440 VHS 19 Min. English

Repetitive Stress Injuries - Manufacturing

Safety Short Productions #T302

Repetitive Stress Injuries (RSIs) are one of the fastest growing injuries in the workplace today. RSIs are caused from years of repetitive or forceful motions that place stress and strain on the body. These painful and sometimes crippling disorders are especially common in manufacturing, where job processes may involve repetitive motion, twisting and lifting at the same time, and awkward postures that can stress the body. To help minimize or prevent RSIs, choose proper work techniques and stay alert for symptoms.

Avoiding the Danger Zones of Zoning

Michigan Municipal Risk Management Authority

Poor land-use decisions are exposing communities and their insurers to costly litigation. Over the past decade there has been an identifiable escalating trend of land-use litigation that prompted the MMRMA Administrative Advisory Committee to address this issue through the preparation of a guidance DVD, Avoid the Danger Zones of Zoning. The DVD addresses not only what decisions are made, but importantly, the basis and motivation of making land-use decisions.

General Safety

Playground Series

Michigan Municipal Risk Management Authority

“Play It Safe - Playground Safety Inspection.” This video's targeted audience is park maintenance and recreation staff employees. The video is intended as a training tool to be used prior to the season opening and for follow-up inspections during the season. The video covers the inspectors' certification course of the National Playground Safety Institute (NPSI) and reviews the NPSI “dirty dozen,” the most common playground equipment danger areas. The video uses examples such as worn swing chains, inadequate landing surface material and entanglement exposures for illustration purposes. The video features the puppet character, “Mr. Parker” to convey the message. The resource was developed in conjunction with the cable division and recreated departments of Rochester Hills, a MMRMA Member.

“Playing It Safe: The Liability Seesaw” - The video was developed to accompany the video, “Playing It Safe.” The targeted audience of “The Liability Seesaw” is city councils, township boards, county commissions, parks and recreation supervisors and volunteer groups. The purpose is to educate them on the numerous standards, federal laws and state laws that govern playground facilities. Educating such groups will hopefully build a basis of support and provide necessary funding for the proper installation and maintenance of playground equipment. Many council members have little concept of the liability exposures of playgrounds, especially related to design and maintenance. The video covers the Michigan law for playgrounds covering manufacturing, installation and maintenance. Additional responsibilities created by the Americans with Disabilities Act, Consumers Products Safety Committee (playground safety standards), the American Testing Society for Manufacturers (ATSM) (playground design standards) and the National Playground Safety Institute certification program are included.

Catalog # 315 DVD 24 Min. English

Restaurant Robbery and Employee Theft

The Training Network #495

Prevent huge losses by taking an active approach in preventing robbery and employee theft. Show staff how to make your workplace less of a target and how to handle an incident; Prevention techniques security, limited cash, good customer service; Proper action during and following a robbery; Discouraging employee theft.

Anatomy of a Lawsuit

Michigan Municipal Risk Management Authority

Governmental staff members at all levels are faced with the potential of being either defendants or witnesses in civil suits. A significant number of these will have little or no experience, training, or understanding of the legal process that they will become a part of. This DVD explains them numerous steps involved in a civil suit from incident to jury decision. This DVD presents a very realistic civil suit involving a municipality and explains each and every step of the process.

This would be an excellent training tool to prepare staff members who are involved in litigation. This DVD will demystify the process and give them a better understanding of the process. A better understanding of the tort system will make for a well prepared and better witness.

Violence in the Workplace Safety Short Productions #T271
Violence in the workplace is on the rise. Precautions include recognizing the potential for violence, and knowing what to do in the event of an attack.

Catalog # 199 VHS 5 Min. English

Violence in the Workplace Michigan Municipal Risk Management Authority
This excellent 15 minute video provides an overview of the dangers of workplace violence. Presented in a municipal setting, it introduces the governmental employee to the exposure of violence in the workplace. Attacks initiated by someone from within, as well as outside threats coming into the work environment are portrayed. Dramatic representations of workplace violence enhance the theme of prevention and reaction to violence in the workplace. This video will equip employees with techniques to spot potential problems and detect risk factors that lead to incidence of violence by identifying the three types of threats: direct, conditional and veiled. It also covers elements of potential personality traits of violent individuals. A workplace violence prevention policy is also discussed including the need for ongoing facility security reviews, incident investigation, the formation of a threat assessment team, and dealing with the emotional aftermath of an incident.

Catalog # 214 VHS 15 Min. English

Winning Workforce: Violence in the Workplace The Training Network #2078
Violence in the workplace is the third-leading cause of fatal occupational injury in the United States (Source: OSHA). It affects productivity and is a legal threat. Promote employee awareness by educating your employees on the benefits of a non-hostile workplace. As part of the Winning Workforce series, this new video helps employees understand: The different forms of violence; The warning signs of potential violence; What to do if a violent, or potentially violent, situation arises.

Catalog # 202 [LOST](#) VHS 9 Min. English

Workplace Harassment - Office The Training Network #2325
Harassment encompasses a wide variety of behavior such as practical jokes to intimidation. Teach your employees how to recognize harassment and what to do if they are the victim. Logging Safety - Loading & Unloading Logs		University of Kentucky	
Catalog # 419	VHS	5 Min.	English
Logging Safety in the Intermountain NW: Line Skidding & Ground Skidding		University of Idaho	
Line Skidding - This section deals with different aspects of ground skidding, mainly crawler tractor and wheeled skidders. Knowing where fellow workers are and communication are stressed. Safe operation of machines is also outlined; Grounding Skidding - This section deals with safe operation in hooking, chasing and rigging.			
Catalog # 426	VHS	28 Min.	English
Logging Safety in the Intermountain NW: Loading and Hauling		University of Idaho	
Loading and Hauling - This section includes information on the interface with landing operations, the coordination necessary between truck driver and loader operator and legal requirements of the trucking phase. Safety zones and remaining in that safety zone is stressed. Problems associated with branding are noted. ; Mechanized Logger - This section discusses how these operations tend to be safer but when an accident does occur, it is usually more severe. It includes feller-bunchers, delimiters, processors and cut-to-length forwarders.			
Catalog # 427	VHS	28 Min.	English
Logging Safety in the Intermountain NW: Logging Overview & Safety		University of Idaho	
Logging Overview - This section briefly highlights the different aspects of the logging process from stump to mill. General hazardous situations for each aspect are noted and ways to safely operate are outlined. Safety Meeting - This section outlines the successful conducting of tailgate safety meetings and other more organized training sessions.			
Catalog # 424	VHS	33 Min.	English
Logging Safety in the Intermountain NW: Physics of Falling & Landings		University of Idaho	
Physics of Falling - This section deals with safety in the production aspects of falling. It deals with looking over the strip to survey conditions, using appropriate techniques safely to fall trees, planning the escape route and coordinating with the skidding crew; Landings - This section describes hazards associated with various types of landings - hot operations, cold decking, line skidding and mechanized. Worker safety zones are emphasized and knowing where fellow workers are at all times is stressed.			
Catalog # 425	VHS	31 Min.	English
Looking Forward to the Future - The Importance of Wearing Eye Protection		TWCIF	
This video discusses the many hazards that are common to the logging industry - reasons and need to wear eye protection. Type of eye protection to use.			
Catalog # 411	VHS	18 Min.	English
OSHA Rules for Logging		Alabama Cooperative Extension Service	
Panel discusses OSHA safety rules for loggers.			
Catalog # 403	VHS	45 Min.	English

Logging Safety

Professional Trucking of Forest Products - Green Light to Home	North Carolina Forestry Association
Discusses logging in the woods and trucking of the wood to the mill. Covers; Defensive truck driving; Highway driving; Maintenance; Job site layout and safe parking.	
Catalog # 413	VHS 26 Min. English
Round Trip to Danger	John Deere
A safety film for the Logging and Pulpwood Industry featuring Grapple Skidders, Cable Skidders, 4-Wheel Drive Loaders and mechanical felling and bunching. Produced with the assistance of the American Pulpwood Association, Western Wood Producers Association and the National Safety Council. This features a professional Hollywood stunt man.	
Catalog # 423	VHS 21 Min. English
Safety Bite: Chainsaw Safety	The Training Network #B147
Chain saws can be extremely dangerous if safety is forgotten for even a moment. Increase awareness of dangerous and reduce unsafe acts: Proper clothing, Safe undercuts, felling, and bucking, and how to control and inspect the saw.	
Catalog # 414	VHS 5 Min. English
Safety in the Logging Woods: Feller Buncher	Alabama Cooperative Extension Service
Emphasizes safety in logging operations. Looks at safe ways to operate feller buncher machines.	
Catalog # 409	VHS 16 Min. English
Safety in the Logging Woods: Loader Operations	Alabama Cooperative Extension Service
Emphasizes safety in logging operations. Looks at safe ways to operate loader machines.	
Catalog # 407	VHS 13 Min. English
Safety in the Logging Woods: Log Landing & Log Yard Operations	Alabama Cooperative Extension Service
Looks at safety issues and hazards in log yard operations.	
Catalog # 404	VHS 18 Min. English
Safety in the Logging Woods: Operation of Skidders	Alabama Cooperative Extension Service
Emphasizes safety in logging operations. Looks at safe ways to operate skidder machines.	
Catalog # 408	VHS 20 Min. English
Split Seconds, Split Lives	John Deere
Suited for use with teens and adults involved in using machinery. Discussions by victims and family members of victims about what it's like after the accident.	
Catalog # 422	VHS 23 Min. English
Stump to the Mill	Alabama Forestry Association
Catalog # 401	VHS 26 Min. English
Stump to the Mill	Alabama Forestry Association
Catalog # 402	VHS 26 Min. English
The Continuing Forest	Caterpillar
A reasoned, logical presentation for multiple-use management of our national forests. The film addresses market requirements, forest productivity, scientific forest management, forest ownership, forest regulations, old growth, road construction, recreations demands, wilderness vs. Wilderness, water, fish, wildlife and soil protection.	
Catalog # 418	VHS 28 Min. English

Safety Video Catalog

Logging Safety

Use Your Head: The Importance of Hard Hats & Hearing TWCIF
Why you should wear hard hats and hearing protection in the woods. Shows examples of head injuries in the woods. When to wear hearing protection. Hard hats do's and don't's.
Catalog # 410 VHS 10 Min. English

Slips & Falls

Fall Protector - Construction Training J.J. Keller
This training program covers OSHA's general fall protection requirements, steel erection fall protection, fall protection for tower erectors, and ladder and scaffold safety.; In addition, Keller's Fall Protection for Construction program simplifies training on the following topics; Use and Operation of Guardrail Systems; Safety Net Systems; Personal Fall Arrest Systems; Safety Monitoring Systems; Controlled Access Zones; Warning Line Systems.
Catalog # 171 VHS 60 Min. English

Ladder Safety Safety Short Productions
Incorrectly used, a ladder can be one of the most dangerous tools in the workplace. Guidelines on safe ladder use are shown to help reduce ladder accidents.
Catalog # 400 VHS 44 Min. English

Must We Fall - Slips, Trips, Falls Visucom Productions
What causes falls - changes in walking/working surfaces. Includes reenactment of several falls by a stunt man. Perceive, evaluate and react.
Catalog # 145 VHS 17 Min. English

Safety Bite: Slips & Falls for Restaurant The Training Network #B205
Wearing appropriate footwear; Posting warning signs; Removing floor surface hazards.
Catalog # 507 VHS 5 Min. English

Tool & Machinery Safety

Air Supplied Respirators The Training Network #705
Different types of respirators; Safety procedures to get fitted; Procedure before using a respirator and entering a confined space.
Catalog # 451 VHS 12 Min. English

Fueling a Machine Safety Short Productions #T074
Although a simple procedure, refueling a machine can be dangerous. Workers are graphically reminded that creativity in the workplace is no substitute for safety.
Catalog # 170 VHS 5 Min. English

Grinder & Abrasive Wheel Safety The Training Network #376
Avoid dangerous disintegration of wheels and encourage safe use of equipment; Causes of personal injury; Abrasive wheel storage, inspection, mounting, use; Portable and bench grinders: safety tips, storage and use.
Catalog # 303 VHS 14 Min. English

Jointer/Surface Operation and Safety The Training Network #506
Ensure employees understand proper machinery techniques and think safety; Parts and uses of the jointer/surfacers; Proper dress and eye protection; Set-up and alignment; shut-off and cleanup; Safety procedures for both jointers and planers
Catalog # 434 VHS 14 Min. English

Safety Video Catalog

Tool & Machinery Safety

Lock Out / Tag Out for Affected and Authorized Employees	The Training Network #1153
Comprehensive video covers 1910.147 and helps ensure employee are following safe work practices. Improper lock-out/tag-out can be deadly and employees need to be aware. Covers: Electric, hydraulic and pneumatic systems; lock-out/tag-out procedures; Energy types and characteristics; Safe start-ups and shut-downs.	
Catalog # 430	VHS 16 Min. English
Lock Out / Tag Out - You Hold The Key	The Training Network #1029
Employees will know and understand how they literally hold the key to their own safety when they use proper lock-out/tag-out procedures: Roles and responsibilities of affected and authorized employees; Six steps to safe equipment shut-downs; Necessary steps to ensure safe start-ups.	
Catalog # 435	VHS 15 Min. English
Lockout/Tagout Safety Training	The Training Network #S548
Meet 29 CFR 1910.147 requirements. Demonstrate correct lock-out/tag-out procedures from shutdown to startup, with scenes from workplace environments; Explanation of lock-out/tag-out and contents of the OSHA standard; Identifying energy sources; Achieving a 'zero energy state; Use of tags and multiple locks.	
Catalog # 428	VHS 30 Min. Spanish
Lockout/Tagout Safety Training (Humorous)	The Training Network #156
Meet OSHA requirements and put responsibility in the hands of your employees; OSHA's Reg/Energy Control Plan; Lock-out/Tag-out situations, devices, and procedures; Specific procedures for electrical, pneumatic and hydraulic systems.	
Catalog # 429	VHS 20 Min. Spanish
Machine Guarding	The Training Network #549
Prevent machine operator injuries with this essential training! Includes identifying hazards; Developing guidelines for machine guarding; Areas of guarding: point of operation, power transmission apparatus, moving parts; Proper guard placement and equipment alteration/tampering hazards.	
Catalog # 433	VHS 18 Min. English
Machine Guarding and Conveyor Safety	The Training Network #0861
Principles of machine guarding explained clearly. Ensure employees understand and respect the principles of machine guarding and safe work rules near conveyor systems. Topics include: Types and location of guards, Inspection, Maintenance and lock-out/tag-out, Appropriate dress near machinery and conveyor and Safety procedures near conveyor systems.	
Catalog # 436	DVD 12 Min. English
Machine Safety Guards	Safety Short Productions #T124
Machine guards protect the worker from dangerous moving machine parts. See how machine guards work and learn some safety tips to keep in mind when using them.	
Catalog # 432	VHS 6 Min. English
Oxy Fuel Safety - It's Not An Option	Victor Equipment Company
Safe operating procedures; Four basic oxy fuel applications; Review of fuel gases; Flashback causes; Workplace safety.	
Catalog # 706	VHS 32 Min. English
Personal Safety Equipment	The Training Network #S207
Comply with OSHA's 1910.132! Covers all hazards and protective wear: gloves, arm, wrist protection, foot, body, head, eye, ear and breathing protection devices; Determining when and which PPE is needed; Use of hearing protection devices.	
Catalog # 450	VHS 30 Min. Spanish

Safety Video Catalog

Tool & Machinery Safety

Safe Use of Compressed Gas Cylinders The Training Network #B116
DOT regulations; Using extreme caution with this potentially hazardous equipment; Cylinder storage rules; Handling leaks and tagging cylinders.
Catalog # 127 VHS 7 Min. English

Safety Bite: Hand and Power Tool Safety The Training Network #B107
Raise awareness of hand/power tool safety issues. The simple screwdriver causes 100 deaths annually; Tool inspection and maintenance; Proper inspection procedures for electrical plugs, outlets, and parts.
Catalog # 605 VHS 7 Min. English

Safety Bite: Machine Guarding The Training Network #B132
OSHA regulations against removal or tampering with machine guards; Training and authorization for machine use; Guard classifications: fixed or adjustable enclosure, interlocking, automatic, remote control or others.
Catalog # 431 VHS 8 Min.

Safety Bite: Radial Saw Safety The Training Network #B153
Importance of blade guard; How to prevent kick backs; Wearing proper PPE.
Catalog # 599 VHS 5 Min. English

Table Saw Safety And Use The Training Network #0509
Parts and uses of the saw; Proper dress and eye protection; Set-up and blade changing; Stock inspection and checking miter gauge; Safe sawing, angle and miter cuts, ripping.
Catalog # 609 VHS 14 Min. English

Welding/Cutting Safety The Training Network #383
Comply with 1910.253 & .254. Awareness & training are keys to avoiding accidents & injury; Hazards: fumes & physical agents; Illness and injuries: metal fume fever; eye, skin and hearing injuries; fire; Oxygen and acetylene: properties, hazards, marking, moving and storage of cylinders.
Catalog # 705 VHS 26 Min. English

Wood Shop Safety The Training Network #505
Every shop is full of dangerous machinery & hazards. Train for personal safety awareness; Fire; chemicals; Electric shock: grounding, cords, liquids; Explosions: compressed gas, pressurized cans, lighting furnaces/foundries, batteries; Asphyxiation: air filtration, PPE, soldering; Physical injuries: PPE, safe lifting, chemical burns, housekeeping, kill switches; Tool/machine safety: cleaning, inspecting; Exposure Control Plan: administrative controls, engineering controls.
Catalog # 603 VHS 22 Min. English

Vehicle & Driving Safety

Cargo Securement Training for Flatbeds The Training Network #1697
Comply with the FMCSA's final rule amending the cargo securement regulations found in 49 CFR Parts 392 and 393 of the Federal Register with this training video. It helps carriers and drivers prevent cargo from shifting and coming loose during transit, and further reduce the occurrence of cargo securement-related
Catalog # 181 VHS 17 Min. English

Coaching the Maintenance Vehicle Operator FLI Learning Systems
This comprehensive defensive driving program focuses on improving an operator's ability to read traffic conditions, act accordingly, and prevent collisions - both on the road and at the work site.
Catalog # 102 VHS 4 Hours English

Safety Video Catalog

Vehicle & Driving Safety

Coaching the Professional Truck Driver	FLI Learning Systems
This comprehensive classroom program adheres to the educational philosophy of high trainee involvement. Capitalizing on truck drivers' over-the-road experiences, the program continuously requires drivers to analyze and discuss defensive driving issues. The program also features a segment on vehicle inspection and is compatible with CDL information.	
Catalog # 103	VHS 6 Hours English
Distracted! Drive Safe	The Training Network #1589
Cell phones are an obvious danger, yet drivers changing music stations or CDs cause 32,000 accidents each year. Provide your new and veteran tractor-trailer and other professional drivers with tactics that prevent them from becoming victims of the three-quarters of all drivers that admit to being distracted. Your drivers hear from actual truckers and company owners in this face-paced video that covers how to: Recognize and avoid distracted drivers; Prevent yourself from becoming distracted	
Catalog # 180	VHS 17 Min. English
Driving Techniques - Seven Minute Solutions	J.J. Keller
Seven Min. of driver training could help save hours lost due to accidents... This quick video-based refresher program reviews proper techniques for changing lanes, passing, braking, climbing grades, merging, using mirrors, driving defensively, and more.	
Catalog # 107	VHS 7 Min. English
Michelle Norton's Story - June 6, 2001	National Highway Traffic Safety Administration
A video account of a mother whose two sons were killed in the course of an officer's emergency response to a report of domestic violence. This video serves to reinforce the critical nature of emergency driving and reemphasize officers' responsibility in the safe and prudent operation of their vehicles.	
Catalog # 177	VHS 20 Min. English
Passenger Vans and Shuttle Bus Operations I	Safety Short Productions #T265
Operators of passenger vans and shuttle buses can help ensure passenger safety by conducting a pre-trip inspection of the vehicle and by following safe procedures for pick-up and discharge of passengers.	
Catalog # 105	VHS 5 Min. English
Passenger Vans and Shuttle Bus Operations II	Safety Short Productions #T266
The safety of passengers in passenger vans and shuttle buses depends on skilled drivers who can handle their vehicles at all times. Scenes illustrate safe driving practices under varying conditions.	
Catalog # 106	VHS 5 Min. English
Physics 101 Grade Crossing Safety for Professional Drivers	Operation Lifesaver, Inc.
This video reminds the professional driver of the dangers inherent in highway/rail crossings and the proper precautions to be taken at these critical intersections. This program also notes the precautions taken by train crews in an effort to avoid crashes.	
Catalog # 099	VHS 26 Min. English
Roll Call - Highway-Rail Grade Crossing Safety	Operation Lifesaver Inc.
Targeted to law enforcement, this video takes a quick look at the life and death reasons for Operation Lifesaver's long-standing and strong partnership with law enforcement and its importance at highway-rail grade crossings in communities nationwide.	
Catalog # 109	VHS 10 Min. English

Waste Handling

Be Safe, Be Proud

National Solid Wastes Management Association

This 18-minute, viewer-friendly video was developed by the National Solid Wastes Management Association (NSWMA) under a grant from the federal Occupational Safety and Health Administration (OSHA) awarded to the Environmental Research and Education Foundation (EREF). This unique training video uses actual employees in real situations to focus on the workplace hazards faced by drivers and helpers on residential collection routes. Segments on safe commercial collection and disposal practices also are included.

Catalog# 514 DVD 18 Min English

Be Safe, Be Proud – At the Landfill

National Solid Wastes Management Association

This 20-minute, viewer friendly video was developed by the National Solid Wastes Management Association (NSWMA) under a grant from the federal Occupational Safety and Health Administration (OSHA) awarded to the Environmental Research and Education Foundation (EREF). The video was shot at one of the largest landfills in the United States and shows real landfill disposal operations. Focusing on common safety hazards faced by landfill workers and haulers at landfills, this unique video will help users reduce landfill accidents, injuries, and fatalities.

Catalog# 515 DVD 20 Min English

Be Safe, Be Proud – At the Transfer Station

National Solid Wastes Management Association

This 18-minute video will help both transfer station employees and haulers identify principal safety hazards at transfer stations and how to avoid injuries and accidents. Topics covered include traffic control, scavenging, personal protective equipment, spatial separation of equipment, and training. The video shows an actual operating transfer station and uses humor to keep your employees' attention.

Catalog# 516 DVD 18 Min English

Be Safe, Be Proud: Safety Awareness for Supervisors and Route Managers

NSWMA

This 20-minute video will help supervisors, route managers, driver trainers, and others observe drivers, helpers and shop employees and coach them on how to teach workers to avoid fatalities, injuries and accidents. Focused on collection and maintenance, the video covers route observations, how to communicate with employees about safety issues, and the importance of following applicable safety rules. The video shows actual garbage trucks and employees.

Catalog# 517 DVD 20 Min English

Solid Waste Rear Loader Operations & Safety

The Training Network #416

Encourage your solid waste drivers and their assistants to pay attention to the safety details of their job; Pre-trip inspection checklist; Loading: demonstration of safe techniques; Blade safety, avoid 'backpacking' loads, dumping, emergency stops and electrical safety.
