

BID SUBMITTAL FORM
Alabama County Joint Bid Program
Heavy Equipment – BID ITEM: RIDE ON INDUSTRIAL BOOM MOWER
OPTION C

Company Name: Warrior Tractor & Equipment Company, Inc.

Address: 6801 McFarland Blvd, Northport, AL 35476

Bid Submitted by: David Schafer
(Name of company representative)

Title: District Sales Manager E-mail address: dschafer@warriortractor.com

Phone: 205-339-0300 Fax: 205-333-0101

By submitting this bid, we agree:

Initials

The equipment model number identified below meets the bid specs for this bid item.

DS

That the bid price will be honored for all counties for the period from **January 1, 2025** to **December 31, 2025**.

DS

The equipment will be delivered at the bid price to all counties participating in the joint bid program.

DS

The company acknowledges the freight preparation and delivery price is to be included in the total bid price for the standard machine.

DS

The company representative listed above will be the contact person for purchasing this bid item under the joint bid program.

DS

The bid is accompanied by a current catalog or model specification document for the model number identified below.

DS

The bid is accompanied by a copy of the manufacturer's standard warranty as required in the bid specifications.

DS

The bid includes the E-Verify documentation required by Alabama law.

DS

If awarded the bid, a performance bond will be provided upon request.

DS

The bid documents include the **Manufacturer's Suggested Retail Price Sheet (MSRP) for the Standard Machine.**

* **NOTE:** Award will be made based on the total cost of the **Standard Machine**. The total cost of the standard machine is to include the freight preparation, delivery and standard warranty cost. Freight preparation, delivery will be excluded from the total bid price of the standard machine in determining the percentage discount for any available options.

BID SUBMITTAL FORM: OPTION COST SHEET
BID ITEM: RIDE-ON INDUSTRIAL BOOM MOWER OPTION C

By submitting this bid, we agree:

To offer any available options at the percent difference between the Manufacturer's Suggested Retail Price Sheet and the actual bid price on the Standard Machine*

10/13

The bid documents include the **Manufacturer's Suggested Retail Price Sheet (MSRP)** for the Standard Machine

10/13

Equipment Model #: Alpha T10 33 Foot Boom

Description: Industrial Boom Mower

Signature of company representative submitting bid: 

Title: District Sales Manager

***Note:** The percent difference between the **Manufacturer's Suggested Retail Price Sheet (MSRP)** for the standard machine as specified by these **Bid Specifications** and the actual price bid by the vendor will be calculated to determine the percentage discount to be applied to any available options. The bid price of the freight preparation, delivery cost shall be excluded in determining the percentage discount to be applied to available options. Any individual county may choose to add any available option to the standard machine at the percentage discount at the time of purchase.

BID ITEM: RIDE-ON INDUSTRIAL BOOM MOWER OPTION C

GENERAL

These specifications shall be construed as the minimum acceptable standards for a ride-on industrial boom mower with universal attachment plate and mowing arm. Should the manufacturer's current published data or specifications exceed these standards, the manufacturer's standards shall be considered minimum and shall be furnished. All integral parts not specifically mentioned in the scope of these specifications that are necessary to provide a complete working unit shall be furnished. Additionally, the machine offered for bid shall include all standard manufacturer's equipment. The machine must be a new current production model and shall meet all EPA and other applicable standards at the time of manufacture.

The use of specific names and numbers in the specifications is not intended to restrict the bidder or any seller or manufacturer, but is intended solely for the purpose of indicating the type, size and quality of equipment considered best adapted to the uses of counties participating in this joint bid.

BID SUBMITTAL FORM

Each bidder must submit his or her bid on the Bid Submittal Form included in the invitation to bid package. All written warranties to be submitted shall be attached to the Bid Submittal Form.

BID PRICE

The price bid shall include all destination charges, delivery charges, title fees, rebates, and all other applicable costs and refunds.

MANUALS

Each unit shall be provided with one (1) copy of the operator's manual, (1) copy of the repair manual and one (1) copy of the current parts manual. Units will not be accepted for delivery until the manuals as outlined above are received by the purchaser.

REPLACEMENT PARTS AVAILABILITY

Parts must be available for 5 years or 7,500 hours of use for the piece of equipment bid. If replacement parts are not delivered within three (3) working days of an order being placed, the bidder will deliver an equivalent machine for the county to use at no cost to the county until such time as the parts are delivered to the county so it can affect repairs to its machine.

WARRANTY

Bidders shall submit a copy of the manufacturer's standard warranty. Warranty shall include service response time of maximum of 36 hours within notification by county.

CAB, COMFORT, CONVENIENCE & SAFETY:

90 Degree Rotating custom designed cab will be mounted in front of the engine and hydraulics for optimum operator visibility. Cab must be certified for both ROPS – ISO 3471 and FOPS – ISO 3449.

- On-board computer with display for controlling the functionalities of the engine
- Tilting and height-adjustable steering column
- Electrical direction control lever
- SEAT ALTO S55 seat with air suspension
- Right armrest integrated into the seat and adjustable (with boom joystick housing)
- Front windshield washer wiper
- Electronical controlled air conditioning system, pollen filter and dedicated exchanger
- Left mirror
- Cab door with 60/40 opening
- Cab rear windows darkened with UV rays reduction treatment
- Rear documents holder
- Manual halogen courtesy light
- Emergency glass break hammer
- External electrical socket for 12 V DC services
- Two-way USB socket (2x 5 V DC - 1 A)
- Clothes hangers
- Cup holder
- DAB stereo
- Right side in-cab mirror DES

ILF ALPHA

PROFESSIONAL
VEGETATION MANAGEMENT MACHINE

MSRP 2024 - N° 1 - REV. 00
(in force from January 1st 2024)

ILF ALPHA

ILF Alpha is a self-propelled machine equipped with a telescopic arm suitable for the installation of various attachment to operate in the control of vegetation. A fundamental and unique feature of its kind is the possibility of rotating the cabin up to 90° with respect to the longitudinal axis of the machine in order to give the operator maximum visibility and comfort during work. This self-propelled machine is equipped with the latest generation **John Deere engine** that provides **173 HP** in compliance with the **EU Stage V** anti-pollution regulations. In addition to the wide range of types and arm lengths, it is possible to equip the machine with different configurations to manage attachments installed at the front and rear.

ILF ALPHA

Standard equipment:

MACHINE:

- LED daytime running lights.
- Steel reinforced rear light bar.
- Integrated LED rear lights for road traffic.
- 8 t towbar (without braking systems) – ONLY WITH "AGRICULTURAL MACHINE" APPROVAL.
- Service towbar (not homologated for road circulation) – ONLY WITHOUT "AGRICULTURAL MACHINE" APPROVAL.
- Fuel tank capacity 245 l.
- AdBlue® tank capacity 23 l.
- Hydraulic oil tank capacity 300 l.
- Retractable folding step on the counterweight for easy refueling.
- Double front steps on left and right for safe cab Ingress/Egress (right step only when the cabin is rotate).
- Large tool compartment on the right side of the machine complete with Energreen Service Toolbox.
- MICHELIN XF (18 R22,5) tires.

ENGINE:

- John Deere 4045CI 4.5-liter liquid-cooled in-line 4-cylinder engine.
- HPCR (High-Pressure Common-Rail) injection with 4 valves per cylinder.
- Engine power 129 kW (at 2200 rpm).
- Engine data control and regeneration devices management (exhaust gases treatment) integrated in the ECI - Energreen Control Interface (in-cab 10" monitor).
- FLEXXAIRE proportional hydraulic reversible fan system (AUTO and MANUAL activation).
- Separate cooling circuits (coolant - intercooler - hydraulic oil) with reinforced multi-section radiator.
- 11" two-element air filter (primary and safety) and self-cleaning cyclonic prefilter.
- 200 A /14 V DC alternator.
- Automatic battery isolator switch.
- Exhaust emissions compliant with EU Stage V.
- EGR (Exhaust Gas Recirculation) module with throttle valve and air heat exchanger managed by ECU (Engine Control Unit).
- Exhaust system consisting of EGR (Exhaust Gas Recirculation) + DPF (Diesel Particulate Filter) + DOC (Diesel Oxidation Catalyst) + SCR (Selective Catalytic Reduction) with regeneration without burner.

AXLES AND BRAKING SYSTEM:

- Axles with 10 Stud Hub with maximum permissible load:
 - front: 8700 kg
 - rear: 9150 kg
- SCD - Stability Control Device system for locking/unlocking the front axle oscillation by means of hydraulic cylinders controlled by ECI.
- 100% Front and rear Diff lock with electro-hydraulic in-cab control.
- Centralized axle lubrication system via two easily locate access points.
- 8-Discs Oil immersed brakes system.
- Negative parking brake.

TRANSMISSION AND STEERING:

- Continuously variable hydrostatic transmission with two-speed mechanical gearbox (work and transfer gear)
- ECO-MODE system to provide efficiency savings when travelling between worksites by lowering engine RPM when travelling at 40 km/h
- Selectable drive modes 4wd or 2wd
- Electronic recognition of wheel alignment and selection of steering mode by ECI
- Selectable steering mode:
 - 2-wheel steer (only front)
 - 4-wheel steer
 - Crab steer

Standard equipment:

HYDRAULIC SYSTEM:

- Piston pump and motor, in closed circuit, for the arm-mounted equipment
- Piston pump and motor, in closed circuit, for the machine transmission
- Gear pump, in open circuit, for the movements of the arm
- Gear pump, in open circuit, for the breaking system
- Gear pump, in open circuit, for the steering system
- Pressurised inlet and outlet filter for closed circuits with filter blockage indicator
- In line high pressure filter for the hydraulic valve block protection with filter blockage indicator
- Hydraulic oil flow (0-100 %) control of the equipment hydraulic circuit by ECI
- Modular 6-section hydraulic valve block:
 - n° 5 proportional elements (electronic piloting)
 - n° 1 hydraulic safety element (electronic piloting)
- Boom suspension system with nitrogen accumulators
- Floating movement function of the cutting head tilting
- Hydraulic oil temperature display

STANDARD CAB:

- 90° Rotating cabin.
- FOPS (ISO 3449) – ROPS (ISO 3471) cabin approval .
- ECI (Energreen Control Interface) consisting of on-board computer with 10" touchscreen display, PowerTrack (navigation knob) and electronic keypads for controlling the functionalities of the machine and the engine.
- Tilting (in two points) and height-adjustable steering column.
- Electronic direction control lever.
- GRAMMER MAXIMO XXL seat with air suspension and adjustable lumbar shock absorber.
- Innovative and redesigned ergonomic right armrest, integrated into the seat and adjustable (with joystick housing for boom, fingertip joysticks housing for machine settings and mini-joystick housing for front hydraulic functions if the machine is equipped with front options).
- Front windshield washer wiper.
- Electronical controlled air conditioning system, pollen filter and dedicated exchanger.
- Retractable sunshade on front windshield.
- Left mirror.
- Right mirror – ONLY WITH "AGRICULTURAL MACHINE" APPROVAL
- Height-adjustable LED beacon
- Cab door with partial opening upper window
- Cab rear window partial opening and darkened with UV rays reduction treatment
- Lateral documents holder
- Automatic LED courtesy lights (LED courtesy lights with automatic switch-on system (door opening)
- Emergency glass break hammer
- External electrical socket for 12 V DC services
- Internal 12 V DC socket
- Two-way USB socket (2x 5 V DC - 1 A)
- Clothes hangers

DESCRIPTION	PRICE
180° Arm rotation	\$ 7,859.00
<p>The 180° arm rotation easily and quickly allows the operator to place the telescopic arm and its Flail Head anywhere on the side and to the front of the Alpha machine: boosting visibility, working efficiency and safety.</p>	

TELESCOPIC ARM **T**

TELESCOPIC ARM **F**

TELESCOPIC ARM **3P**

Option on 1st set up:

EASY - RIDE:

TRANSFER MODE

WORK MODE

WORK MODE

DESCRIPTION	PRICE
Suspended front axle	\$ 15,718.00
<p>Front Suspended Axle (Easy Ride system) is automatically activated in all transfers of the machine, and/or when the second gear is activated. The system allows a vertical front axle movement of 110 mm, for a perfect cushioning result during transfers.</p>	
<p>When in work mode the front axle automatically locks left and right suspensions to maximize working stability and safety.</p>	
<p>The system allows you to unlock the suspension on the right while keeping that of the side armrest locked (on the left).</p> <p>When working on uneven terrain, this system guarantees greater support to the ground and maximum grip.</p>

STANDARD WARRANTY TERMS

ENERGREEN guarantees that all products are free of any workmanship and material defects at the time of despatch from the factory, and undertakes during the specified warranty period, to repair or replace free of charge, all those parts found to be defective due to poor material quality or workmanship defects, within the limits and according to the specifications of the present warranty terms.

The warranty will come into effect from the date of retail sale by Company or a Company dealer and will have a duration of a maximum of 12 months, limited to 1.500 (fifteen hundred) working hours (whichever term expires first).

The warranty will be implemented on behalf of ENERGREEN by the workshops authorised by ENERGREEN which will undertake to either repair or replace, the parts of the relative product for the entire period of warranty, at the conditions as listed below.

ENERGREEN may at any time request the return of the parts replaced under warranty on a carriage free basis. On receipt of the relative parts it reserves the right to accept or refuse replacement under warranty, after checking the same at its own premises or that of its suppliers.

A direct supplier warranty may be applied on certain product parts, the workshop entrusted to undertake the repairs will contact the supplier concerned.

The defective parts may, at the discretion of ENERGREEN, be replaced with either new parts or parts overhauled by ENERGREEN, or by its own suppliers.

The Customer is obliged, during the warranty period, to immediately contact an authorised workshop to notify any product defects found, it must also undertake programmed maintenance operations (servicing).

The User and maintenance manual is consigned with the product and it must be thoroughly read in order to ensure the correct use of the machine itself and the carrying out of the maintenance operations.

The warranty will lose validity in the event of:

- incorrect use of the vehicle, not in compliance with the instructions handbook and operating maintenance;
- the application of equipment or accessories which fail to comply with specifications;
- use of non-original spares;
- use of lubricants not in specifications;
- failure to undertake programmed maintenance operations;
- repairs not carried out by authorised workshops;
- unauthorized electric and/or mechanical modifications.

Except in the case of fraud or serious fault of ENERGREEN, all responsibility of ENERGREEN is specifically exempted or of the retailer (dealer) of ENERGREEN, for product defects or faults, any such responsibility being replaced by the warranty indicated above. Any responsibility of ENERGREEN or its retailers (dealers) (both contractual and non-contractual) is also excluded in the event of product defects or damage (as the result of machine standstill or loss of earnings), or any costs or expenses deriving from faults, neither may it be possible to either cancel the contract or suspend (or reduce) payments, ENERGREEN obligations being limited to the repair and replacement of the parts in accordance with warranty terms.

SERVICE CONDITIONS DURING THE STANDARD WARRANTY PERIOD

The Customer is delivered this Customer warranty manual which describes the rights and obligations in relation to the purchased product, the warranty is assured by means of the Dealer/ Agent network.

As well as the Standard warranty conditions the present document also contains:

DELIVERY REPORT - Certifying that the Dealer/Agent has carried out a complete check and setting up of the product before delivery, and that it has also undertaken to supply the use and maintenance instructions described in this same manual and that it has informed the customer of the warranty terms applied.

PROGRAMMED MAINTENANCE SERVICING - During the warranty period the final Customer is obliged to notify the Dealer/Agent within the pre-established expiry date, for them to arrange programmed servicing, according to the specifications described in the User and maintenance manual and recorded in the relative register.

The programmed maintenance operations during the warranty period is subject to the following regulations:

- the maintenance operations are to be undertaken at regular fixed intervals (the first after 100 hours, the second after 500 hours and subsequently every 500 hours), with a tolerance of +/- 10% on the hour-meter reading;
- maintenance must be undertaken by authorised organisations;
- should it be necessary to substitute materials or undertake other operations that are not envisaged in the maintenance programme, standard warranty procedures will be applied;
- the cost involved in the programmed maintenance operations at 100/500/1000/1500 hours intervals will be totally at the expense of the final customer (lubricants, filtering elements, travelling expenses, travelling and working hours).

WARRANTY CERTIFICATE - Permits the implementation of the standard or special warranty terms.
The repair operations undertaken during the warranty period will be undertaken by the Dealer/Agent.
Lubricants and expendable materials are not covered by the warranty.

CUSTOMER OBLIGATIONS - In order to ensure product efficiency the final Customer undertakes to notify its dealer/agent of the following:

- eventual machine transfers outside its own zone;
- should the hour meter fall to work;
- eventual theft of the machine;
- the approach of the expiry date for undertaking the programmed maintenance;
- any defects, even minor, which may cause greater damage to the machine.

THE E-VERIFY PROGRAM FOR EMPLOYMENT VERIFICATION
MEMORANDUM OF UNDERSTANDING

ARTICLE I

PURPOSE AND AUTHORITY

This Memorandum of Understanding (MOU) sets forth the points of agreement between the Department of Homeland Security (DHS) and Warrior Tractor & Equipment Co., Inc. (Employer) regarding the Employer's participation in the Employment Eligibility Verification Program (E-Verify). This MOU explains certain features of the E-Verify program and enumerates specific responsibilities of DHS, the Social Security Administration (SSA), and the Employer. E-Verify is a program that electronically confirms an employee's eligibility to work in the United States after completion of the Employment Eligibility Verification Form (Form I-9). For covered government contractors, E-Verify is used to verify the employment eligibility of all newly hired employees and all existing employees assigned to Federal contracts or to verify the entire workforce if the contractor so chooses.

Authority for the E-Verify program is found in Title IV, Subtitle A, of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, 110 Stat. 3009, as amended (8 U.S.C. § 1324a note). Authority for use of the E-Verify program by Federal contractors and subcontractors covered by the terms of Subpart 22.18, "Employment Eligibility Verification", of the Federal Acquisition Regulation (FAR) (hereinafter referred to in this MOU as a "Federal contractor with the FAR E-Verify clause") to verify the employment eligibility of certain employees working on Federal contracts is also found in Subpart 22.18 and in Executive Order 12989, as amended.

ARTICLE II

FUNCTIONS TO BE PERFORMED

A. RESPONSIBILITIES OF SSA

1. SSA agrees to provide the Employer with available information that allows the Employer to confirm the accuracy of Social Security Numbers provided by all employees verified under this MOU and the employment authorization of U.S. citizens.
2. SSA agrees to provide to the Employer appropriate assistance with operational problems that may arise during the Employer's participation in the E-Verify program. SSA agrees to provide the Employer with names, titles, addresses, and telephone numbers of SSA representatives to be contacted during the E-Verify process.
3. SSA agrees to safeguard the information provided by the Employer through the E-Verify program procedures, and to limit access to such information, as is appropriate by law, to individuals responsible for the verification of Social Security Numbers and for evaluation of the E-Verify program or such other persons or entities who may be authorized by SSA as governed

Company ID Number: 513478

To be accepted as a participant in E-Verify, you should only sign the Employer's Section of the signature page. If you have any questions, contact E-Verify at 888-464-4218.
